“Now we don’t worry about our I.T failing.”

Walbrook PR is a full service Financial Public Relations and Investor Relations consultancy with wide sector experience and an international client base. Walbrook PR has a strong reputation for advising growing companies and focuses on the provision of Financial Public Relations and Investor Relations to Small Cap and AIM Listed companies.

Walbrook PR (formed as an MBO of Parkgreen Communications) first enlisted the services of Act Systems due to the requirement to relocate due to their old offices being demolished. Based in central London the new office was a bare shell ready to accommodate 30 users. Their current IT was unable to offer all the services required in order to complete the entire projects but ACT Systems with our range of services and partnerships were able to manage the whole project which included:

“ACT Systems took care of everything through one point of contact, excellent” (Paul McManus – Director)

Technical Requirements:

- Cat6 Cabling Infrastructure
- Phone lines and phone system installation
- Internet connectivity
- Communications room Setup
- Physical Move of equipment
- Workstation setup and Configuration

The move completed in December 2006 and Walbrook PR have been a ongoing happy customer leaving all their IT requirements in the hands of ACT Systems.

“Now we don’t worry about our I.T failing.” (Paul McManus – Director)

In recent times we have implemented a new upgraded server, Blackberry Server and administration and recently due to a change in Business have relocated them again to new offices and helped them through all the IT related issues with changing company name such as domain and e-mail addresses making the change seamless.
